Phase 1.

30% Mock Test Series

Here we target to complete more than 1/3th of the Core chapters on the basis of their weightage & importance in the past examinations. This helps the students in the beginning phase of their studies for preparing a time-table as they are mostly confused on where to begin. Moreover, these tests take place in the starting month of your CA

preparation so you can understand if you are studying in the right direction well in advance.

Key Advantages:

• Understand and remember the most important 30% syllabus with writing practice.

 Understand your areas for improvement quite before your actual exams with our chapter-wise performance analysis.

Phase 2:

70% Mock Test Series

Here we target a repetition of the first phase 30% Mock Test plus an additional 40% consisting of all the Level B priority chapters that are once again as per the weightage of the Past CA Examination. This helps you to be more than 70% prepared to write the main exam as we target to cover 90% of the Essential chapters in this 70% Mock Test.

Phase 3:

100% Mock Test Series

If you have studied & tested yourself as per the above two phases, there is nothing that can prevent you from scoring your best in this last phase of our mock test series.

VKNOW prepares you for a full proof test paper covering the entire syllabus of each subject to help you test your knowledge & skill before appearing for your CA Examination.
